

Burn Checklist

It is suggested to burn ONLY if all answers are "Yes."

Yes	No	
		Has a Burn Ban been lifted? (No Burn Ban in Effect)
		Does your insurance cover Hostile Fire?
		Is the predicted wind speed >6mph and <10mph during the burn?
		Is the predicted wind speed less than what you would be comfortable with?
		Is the wind direction acceptable?
		Is the relative humidity greater than 50%?
		Have you prepared the area around the brush pile that will be burned?
		Is the grass around your brush pile green with little dead material?
		Do you expect any major weather changes in the next few days?
		Have you made notifications to the appropriate agencies?
		Have you notified your neighbors?
		Do you have fire suppression capabilities on-site?
		Do you have the proper equipment for the brush pile burn?
		Do you have adequate personnel on-site for the burn?
		Have you made plans to monitor the site until it is totally out?
		Have you made a contingency plan?
